SSS100

Self propelled shower and commode wheel chair

Problems Faced By Users

Lifting, shifting and carrying the patient takes a toll on the care-giver

Lifting and carrying causes a lot of back pain. More than 80% care-givers suffer from lower back pain.

Bathroom slips and falls are among the major causes of injuries among the elderly

Bed ridden users face the bulk of the problems when it comes to toilet visits

Care-giving is risky, tough, undignified with the mental stress behind toilet visits and hygiene issues.

Lack of shower and toilet friendly products that are rust and water proof cause difficulty for users

What Our Products Can Offer You

Our products make it easy to shift in and out of the wheelchair painlessly

Our products eliminate injuries that users go through during toilet visits

Our products are height adjustable, making it easy to use commodes with different heights

Our products can be assembled and disassembled within 60 seconds without any tools

Our products adjust to your needs to make it comfortable for prolonged use.

SSS100

SSS100 is a self propelled wheelchair designed for senior citizens and individuals with limited mobility to access bathrooms in a dignified and safe manner. Our unique tool free height adjustability eases transfers to bed and allows rolling in over different commode heights. Easy to disinfect, waterproof cushions enable to maintain hygiene standards. The big wheels can be detached with a click of a button with quick release axle. The frame is corrosion resistant and designed for a comfort and safety.

- ▶ Made of stainless steel for corrosion resistance
- ▶ Rolls over the commode directly
- ▶ 5 level height adjustability for easy bed-chair transfers and rolling over different commode heights
- ▶ Swivel back armrest for easy user shifting
- ▶ Mag wheels and caster wheels with total lock braking for maximum safety
- ▶ Water resist soft PU cushions for seating comfort
- ▶ Soft top seat cover over the commode seat for normal usage and usage during shower
- ▶ Swing away and removable footrest for moving in tight spaces
- ▶ Tool free assembly
- ▶ Keyhole shaped cushion for easy hygiene access
- ▶ Tool free assembly with Quick release axles to mount/unmount Mag wheels instantly

▶ Can be used as SAS100 Attendant Propelled by removing mag wheels, brakes and using 4 caster wheels
